

Fine Fittings provides support to the healing process after breast augmentation, mastectomy and cosmetic surgery. Many medical conditions often add emotional stress to the pressure of deciding how one might feel after choosing from a variety of treatment options. Whatever the ultimate choice, ensuring proper activity, a supportive environment and restoration to their prior appearance helps in healing both physically and mentally. Fine Fittings is here to support you.

Fine Fittings Also Provides WIGS!

Chemotherapy, alopecia, radiation treatments, and many other medical conditions often leave men and women victim to hair loss. Fine Fittings helps individuals by providing a world of attractive comfortable wig options; along with an extensive inventory of turbans, hats, scarves, and accessories to choose from.

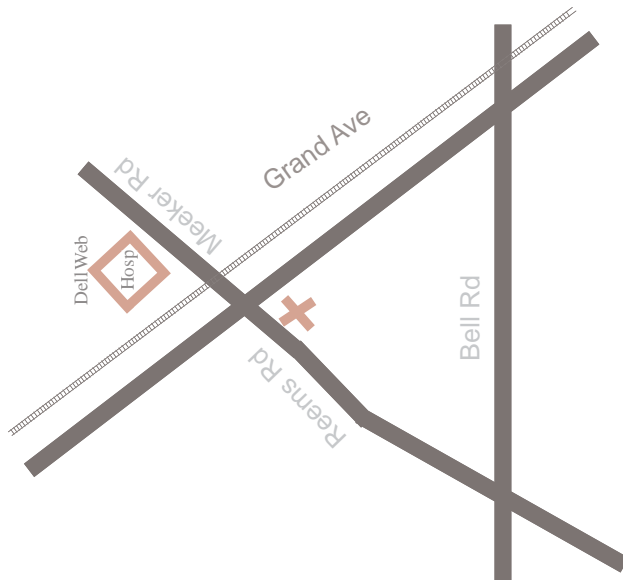

Fine Fittings provides the highest quality wigs and prosthetics as well as attentive caring service. We are happy to answer questions about different kinds of wigs such as synthetic or human hair and provide suggestions on how to achieve the most natural look. Fine Fittings has the ability to cut, alter, style and clean wigs at affordable prices.

Costs and Benefits

Medicare covers mastectomy bras, prosthetics and camisoles. Approximately 1/3 of other insurance plans also cover wigs for chemotherapy-related medical need. Fine Fittings works with Medicare and other insurance companies to deliver supplies at "minimal" out-of-pocket cost. We bill your insurance directly.

If you simply desire a better fitting bra, swimsuit, or shaping accessories, the cost of our products (with fitting &/or tailoring) is similar to what you might find at a department store which does not offer the experience and knowledge of our certified fitters or tailors. Our extensive inventory provides the service at a cost that adapts to your individual financial needs.

Wherever your medical and personal life takes you, Fine Fittings delivers mastectomy products, wigs, swimwear and services with a style you will appreciate.

Mastectomy active wear, swimwear and natural skin care products are available to keep you active for better healing.
